FOXTEL MiniMote

Remote Control
For Ages 3 and Up

USER GUIDE

TABLE OF CONTENTS

Battery Safety
· Batteries are small objects. Batteries must be replaced by an adult.
· Follow the polarity (+/-) diagram in the battery compartment.
· Promptly remove dead batteries from the remote.
· Dispose of used batteries properly.
· Remove batteries for prolonged storage.
· Only batteries of the same or equivalent type as recommended are to be used.
· DO NOT incinerate used batteries.
· DO NOT dispose of batteries in fire, as batteries may explode or leak.
· DO NOT mix old and new batteries or types of batteries (i.e., alkaline/standard).
· DO NOT use rechargeable batteries.
· DO NOT recharge non-rechargeable batteries.
· DO NOT short-circuit the supply terminals.

QUICK START

MiniMote was designed specifically for children ages three or older, with safety and simplicity in mind. MiniMote offers a simple means of control over what content your children are exposed to when they watch television.
Basic setup is very simple, so you can give the remote to the children in your household to begin using in just a few minutes.

Step 1: Installing Batteries
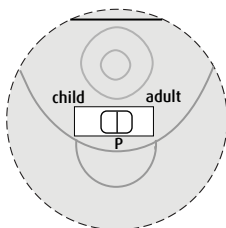

Using a screwdriver, remove the battery cover from the back side of the remote control. Insert 2 AAA batteries as shown below. Do not replace cover on battery compartment until programming is complete.

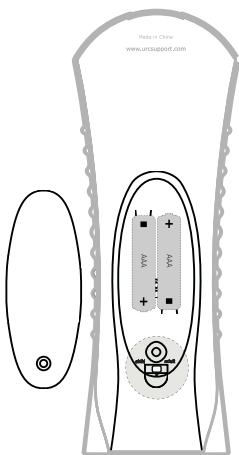

Step 2: Set Remote to Programming Mode

Set the switch located in the battery compartment to the middle position **P** to enter programming mode as shown below.

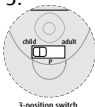

3-position switch

Step 3: Set TV Control (Optional)

1. With your television ON, and the remote in Programming mode, press the **VOL +** key. The LED blinks twice.

2. Refer to the TV codes in the back of this manual. Find your TV brand and enter the first code for that brand by using the number keys on the remote. When you press the fourth number key, the LED on the remote blinks twice to confirm a valid code.

To test the new TV code:

3. Slide the switch on the back of the remote to **CHILD** mode.

3-position switch

4. Point the remote at the TV and press **MUTE**. If the TV is muted, the code is correct. If the TV does not mute, you must try the next code for your brand.

5. Set the switch back to **P** for programming.

3-position switch

6. If **MUTE** did not work, repeat the SET TV Control process until the TV responds to **MUTE**.

   NOTE: The remote must be in **CHILD** or **ADULT** mode to test the code.

7. TV control can also be set by using a simple code search as shown on page 9.

Step 4: Programming the STAR and MOON buttons (optional)

MiniMote comes pre-programmed with 8 favourite kids channels assigned to keys 3 through 0. Two additional favourite channels can be added to the **STAR(1)** and **MOON(2)** keys on the remote.

1. While in Programming mode, press and hold the **STAR(1)** button. Release the key when the LED blinks twice.

2. Press the digits for the channel number for the favourite channel that you wish to save to the **STAR(1)** button.

4

3. Press and hold the **STAR(1)** button until the LED blinks twice. **STAR(1)** now is programmed to the channel that you have assigned.

4. Repeat steps above to assign a favourite channel to the **MOON(2)** button.

Step 5: Set the remote to CHILD mode
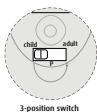

Set the switch located in the battery compartment to the left position to enter **CHILD** user mode. **CHILD** mode is for children and limits them to only have access to the ten programmed channels on the remote.

3-position switch

Step 6: Replace battery door

Secure the battery compartment door back in place with a screwdriver using the screw provided.

Your MiniMote remote is now ready for use!
Refer to this manual for additional features and functions.

CUSTOMISING THE IMAGE COMPARTMENT

MiniMote comes with a customisable image compartment. This allows the remote to be customised for the child or children using the remote. A photo or image of your child's favourite character can be inserted in this location.

To replace default image

1. Using a coin or flat screwdriver, gently pry off the plastic lens

Cut a photo or another image to the size of the circular image compartment and insert photo into opening. TIP: use the MiniMote character image that comes with the remote as a template.

Replace clear plastic cover.

1. Slide tab in
2. Push down

LOW BATTERY INDICATION
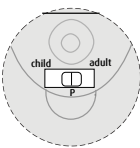

When the battery power is low in the MiniMote, the LED flashes five times with each key-press. Refer to "Step 1: Installing Batteries" on page 3 for battery replacement instructions

FUNCTIONS AND KEY CHARTS

Use the illustration below to locate features on the MiniMote and then study the Key Charts (on the next three pages) to learn how they function.

Programmable Channel Keys

IR Indicator

Preprogrammed Kids's Channel Keys

FOXTEL

Key Charts

Key	Function
(ON/OFF)	Press **ON/OFF** to turn the television and Set Top Unit (STU) on or off.
★ (1) ◑ (2)	The **STAR(1)** and **MOON(2)** keys can be programmed to jump directly to the channel of your choice. When in programming mode, **STAR** is the **1** key and **MOON** is the **2** key,
VOL +/−	**VOL +** turns the TV volume up. **VOL −** turns the TV volume down. When in programming mode, **VOL +** initiates programming for TV and **VOL −** initiates programming for the STU.
(MUTE)	**MUTE** mutes the TV volume. When in programming mode, **MUTE** acts as the **SAVE** key.
CH ▲▼	**Child Mode: CH▲** and **CH▼** cycles through the ten programmed kids channels on the remote. **Adult Mode: CH▲** and **CH▼** cycles through ALL channels. **Programming Mode: CH▲** and **CH▼** cycles through codes to set control of your television or STU.
(children network icons)	The eight pre-programmed keys with children network icons jump directly to the channel associated with the icon when in Child mode or Adult mode. While in Programming mode, these keys act as number keys **3-0** for programming favourite channels.
3-position switch	The three-position switch in the battery compartment is used to set the user (Child/Adult) or Programming mode. **CHILD** mode is for children and limits them to only have access to the ten programmed channels on the remote. **ADULT** mode is for older kids or adults and allows access to all channels when using channel up/down. **P** is Programming mode and is used while setting up the remote control to control the TV, STU, and to add or modify favourite channels.

8

ADDITIONAL PROGRAMMING OPTIONS

Locate the three position switch within the battery compartment. Set the switch to the middle position **P** to enter programming mode.

When programming is complete, set the switch to either CHILD mode or ADULT mode before replacing the battery compartment door.

SETTING TV CONTROL

TV control can be set by inputting the code for your brand of TV or via a simple code search. Setting TV control by code input is described in the Quick Start on page 4.

Setting TV Code by Code Search
1. With your television ON, and the remote in Programming Mode, press the **CH▲** key. The LED blinks twice.
2. Press the **ON/OFF** key once.
3. Press the **CH▲** key once per second until the TV turns off.
4. Press **ON/OFF**. If the TV turns on, press **MUTE** to save the TV code.
5. If the TV does not turn on, press **CH▼** to go to the previous TV code and press **MUTE** to save once the TV turns on.

NOTE: There are over 200 possible codes, so this may take a few minutes.

RE-PROGRAMMING FAVOURITE CHANNEL KEYS

MiniMote comes pre-programmed with 8 favourite kids channels assigned to keys 3 through 0 (refer to Key chart on Page 7). The preprogrammed buttons can be programmed to new channels by following the steps below.

CAUTION: This will program over the channel that was pre-programmed!

To program a favourite channel, follow these steps:
1. While in **Programming Mode**, press and hold the key that you wish to assign a favourite channel. Release the key when the LED blinks twice.
2. Press the digits for the channel number for the favourite channel that you wish to add.
3. Press and hold the key that you wish to assign again until the LED blinks twice.

4.   Repeat steps above to assign another favourite channel.
5.   If the LED flashes one long blink, the entry failed and must be repeated.

ADVANCED FUNCTIONS

Most users won't need to perform any of the set-up procedures in this section.

Volume Control Settings
Volume control functions are defaulted to the TV that the remote is set to control. The volume control setting can be changed by following these instructions.

1.   In **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
2.   Enter **9 9 3** and press **VOL -** to lock volume control to the Set Top Unit (STU).

Or

3.   Enter **9 9 3** and press **VOL+** to lock volume control to the TV.

Channel Control Settings
Volume control functions are defaulted to the STU. The channel control setting can be changed to be through the TV by following these instructions.

1.   While in **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
2.   Enter **9 7 3** and press **VOL+** to lock volume control to the TV

Or

3.   Enter **9 7 3** and press **VOL -** to lock volume control to STU.

POWER CONTROL SETTINGS

The **ON/OFF** key has a default setting to control power on both the STU and TV each time it is pressed. Power control can be changed by following these steps:

1. In **CHILD** or **ADULT** mode, hold down both **MUTE** and **ON/OFF** for three seconds, until the LED blinks twice.
2. Enter **9 9 5**
3. Press **POWER**
4. Press one of the following options:
• **(0)** to set **ON/OFF** to control STU and TV Power, STU first
• **(1)** to set **ON/OFF** to control TV and STU Power, TV first
• **(2)** to set **ON/OFF** to control STU power only
• **(3)** to set **ON/OFF** to control TV power only
5. Press and hold **MUTE** until the LED blinks two times.

WARRANTY

Universal Electronics B.V. warrants to the original purchaser that this product will be free from defects in materials and workmanship under normal and correct use for a period of one (1) year from the date of original purchase.
This product will be replaced free of charge if it has been proven to be defective within the one (1) year warranty period. This warranty does not cover product parts that are subject to wear, that can be considered as consumable parts by their nature or that are made of glass. Further, this warranty does not cover cartons, carrying cases, batteries, broken or marred cabinets or any other item used in connection with the product. To obtain warranty service during the warranty period, please contact our customer service. Please notice that we need your purchase receipt so that we may establish your eligibility for service.
